

# GE HealthCare

MyRemoteShare makes sharing and collaborating through your Vscan Air device seamless and secure.

## MyRemoteShare

# Digital Tools for Vscan Air™

Powerful imaging. Powerful connections. One add-on subscription.

## Get more from your handheld ultrasound experience.

Vscan Air is the powerful handheld ultrasound that enables portable scanning capabilities and delivers crystal clear images so you can make informed decisions, faster.

### Powerful connections made possible.

Connect and collaborate with colleagues and educators in real time — from anywhere. Simply start a remote share session from the Vscan Air app and connect.

### Easily and securely share your Vscan Air app screen with peers

- Receive scan guidance, support and oversight
- Enable assistance for community clinics/physician offices
- Support clinicians in infectious disease and emergency scenarios

### Broadcast Vscan Air app screen remotely

- Train users, run ultrasound labs—from anywhere

## You asked. We listened.

Whether you are an individual provider or part of a larger Healthcare organization, you can now take patient care further by using MyRemoteShare<sup>1</sup> in your practice.

### A video conferencing platform with more.

#### Collaboration

- Invite one or more participants using any messaging application, such as your hospital system's messaging system, text or email

#### Powered by Zoom<sup>2</sup>

- Powered by Zoom — an experience you're likely already familiar with — now for healthcare professionals to collaborate and consult in real-time
- Participants receive a message with a unique URL to join the session
- Share the Vscan Air app screen or interact with peers using audio and video from your camera

#### Add-on

- Enhance your Vscan Air experience with an add-on subscription

1. MyRemoteShare is not intended for diagnostic use. Image quality on the remote participant's display cannot be validated, as Wi-Fi and data connectivity quality can vary.
2. To use MyRemoteShare, participants need to have the Zoom app installed on their device to make it a more streamlined experience.
